

MeaWallet™

BY PAYMENTOLOGY

Mea Push Provisioning

Let your customers add cards to any digital wallet with a simple click of a button.

Key Benefits

Convenient
and secure
in-app card
provisioning

Multiple schemes
and wallets
supported through
one integration

Save development
time and
maintenance costs
with our turnkey SDK

Why Mea Push Provisioning?

1

One service supports all major push provisioning solutions including Apple Pay, Google Pay, Samsung Pay, Mastercard Token Connect, Visa Card Enrollment Hub, and more

2

3x more cards provisioned to digital wallets compared to a manual onboarding

3

Our ready-built SDKs, React Native Wrapper, and backend services minimize development maintenance costs
